Subject: RE: Formaldehyde URT MOA draft materials

Thanks, Jane! Apologies for any confusion. We are yet figuring out the genetox piece and I'm glad you raised this so we could share the status on it. To loop everyone in, I have updated the 11/21 calendar invitation with the files, indicating that the goal is to reach closure, that comments are due 11/19 COB, and that the genetox summary is as yet in progress. Hope that it comes through ok and the goals and scope are clear now. ☺.

Then I will consider the genetox summary to be placeholder and not spend time on it assuming that it is a work in progress. Thanks for the clarification.

Jane C.

Thanks, Jason. Jane, whatever comments you can give on formaldehyde will be appreciated, your priority work on ETO notwithstanding. We need to reach closure on Jason's draft at this Thursday's meeting so he can revise as needed and hand it back to the CMs. FYI, the genetox summary text in Jason's text may stay as a placeholder until we can work out a plan with management to develop a workable synthesis of that information.

It's possible that the MOA portion may yet circle back. If the CMs do come back to us later for further input, we will reinitiate our effort at that time. In the meantime, our WG needs to finish the interim draft so we can turn to other assignments.

Hope this helps—look forward to the discussion on Thursday!
Kate

Hey Jane,

We're still discussing the FA URT cancer MOA revision this Thursday- the meeting that Kate cancelled was for *next* week Thursday the 28th, due to the Thanksgiving holiday.

I understand that you're also trying to wrangle ETO, and appreciate that you have to prioritize. I'll do my best to read whatever I get sent before our meeting on Thursday.

Of course if I get 6+ sets of detailed comments on Wed evening, I'm likely not going to have a detailed bead on them.

The goal for our meeting on Thursday is to get this analysis to a deliverable point, so that we can hand it back to the FA CMs as a some form of workable draft.

Thanks again,
Jason

Dear Jason,

I am starting to look at your writeup. At last weeks meeting, it was decided that our comments on it are due COB tomorrow. Kate just cancelled the Thursday meeting this week to discuss them. Do we have more time to look at your writeup. I could really use the time as I am also trying to do ETO.

Jane Caldwell

Dear Tox Path WG members,

See the below draft from Jason F (thank you!!). We tentatively plan to discuss formaldehyde at our Nov 21 WG meeting. Please send me any written comments before then.

Barbara and Andrew—FYI. As discussed, we will provide the final WG version to you in late Nov.

Huzzah, Jason!!! ☺

Hello,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I look forward to hearing thoughts and opinions back from the workgroup!

Thanks,

Jason
